

**Shri Shivaji Education Society's  
Shri Shivaji College of Education, Amravati.**

**(Affiliated to Sant Gadge Baba Amravati University)**

The institution makes continuous effort for conservation of energy by minimizing the consumption of energy. Energy conservation is a practice of global warming. It may be attained through well-organized energy use.

Energy Conservation has been done by various methods.

Planting trees all around the campus so that there is a not as much of usage of air conditioners.

Green net insulation enables a building to attain and maintain thermal comfort while using less energy for cooling in summer.

Switching to LED or CFL lighting can save a lot of electricity.

CFLs are less expensive to operate and have a longer lifespan than conventional incandescent lights.

Modern LED bulbs could provide a powerful lighting source at a small fraction of the cost of electricity.

The college is embellished with potted plants for greenery and fresh air.

**Alternative sources of energy**

Solar is one of the important ways to cut down electricity costs at institutions. We are also trying to install solar rooftop project to meet the power requirement of the institution
